

REMOVING THE PROGRAM **WINDOWS VERSION**

Here are the steps required to uninstall and remove the Inductel program from your computer.

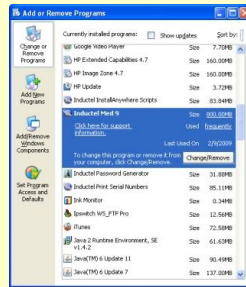

1. Make sure your computer is connected to the internet. As a test, open your web browser, and verify you can link to www.inductel.com. If you don't have an internet connection, please contact Inductel for instructions.
2. Go to your Windows desktop, and open your Windows Control panel.

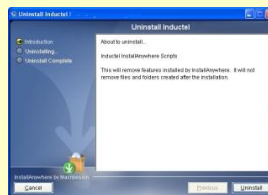

3. In Windows XP, use the "Category View". In Windows Vista, use the Control Panel Home as your starting point rather than Classic View. In Windows 7, elect to view the Control Panel by "Category." In the Windows XP Control Panel, Pick "Add or Remove Programs." In Windows Vista or Windows 7, choose to uninstall a program.

4. From the list of programs, select the "Inductel" entry. In Windows XP, click on the "Change/Remove" button. In the Windows Vista or Windows 7, hit the "Uninstall" button.

5. In "Uninstall Inductel" box, click on the "Uninstall" button.

6. When the "Uninstall" operation is done, restart your computer.
